**In the Center for Creativity
at the Columbus Museum of
Art, we believe that creativity
is for everyone. It can live
within anyone, and take on any
form. This is where creativity
is fostered. Cultivated.
Championed. Celebrated.**

WONDERBALL 2015

IMPACT STATS

699
Attendees

Raised
\$60,500
for CMA's
creative programs

CONNECT

"The hour I spent with the group was one of the most valuable hours I have ever experienced. This program is by far a 10 out of 10."

- ALZHEIMER'S ASSOCIATION VOLUNTEER

Sparkling Imaginations monthly tours help people living with Alzheimer's connect with loved ones through art, joy, and laughter.

The Center for Creativity designs a day-long professional development session to all 100+ visual arts teachers in Columbus City Schools, as part of Capital Day.

CREATE

"Being here was probably one of the greatest experiences of my life."

- ART LAB ALUMN

Art Lab is a teen internship program that challenges thinking, pushing teens to redefine what it means to be an artist, either as a profession or a way of existing curiously in the world.

CMA's *Museum on the Move* community outreach program has traveled 2,400 miles to share meaningful experiences with more than 18,000 community members at local libraries, after-school programs and cultural events.

IMAGINE

"Exploring ones world, feeding the soul and heart, language development, creativity, and brain growing"

- TEACHER DESCRIBING "IMAGINE THAT"

Imagine That is a partnership between CMA and local Head Starts, pairing CMA teaching artists with teachers in their classrooms, providing imaginative experiences for over 450 Head Start children. (Or more than 5,400 contact hours with preschool participants.)

The 2014 LEGO® Design Challenge inspired participants to imagine what building, structure, or mode of transportation a new Columbus would need, using LEGO® bricks to explore, play and express ideas.

EXPLORE

"...In Pivot, I gained confidence...I asked questions and got the confidence to say 'I don't know what I'm doing, but I can ask and find out.'"

- PROJECT PIVOT PARTICIPANT

Project Pivot brought together Arts & College Preparatory Academy high school teachers and CMA teaching artists to develop an emerging curriculum for and with students. Students and staff worked together to develop ideas, conduct research and translate their creative thinking to experiential, interactive and socially driven performance art.

CMA welcomes preschool through high school students for specialized tours and workshops throughout the school year, hosting 10,000 students annually.

WONDER

More than 5,000 students participate annually in the Artful Reading program as part of the Making Creativity Visible Initiative. The Center for Creativity has welcomed 4361 people into Studio Thinking workshops, completing approximately 12,000 creative challenges to date. The challenges encourage people to grapple with big ideas, play with a variety of materials, and collaborate with peers to create artworks and conversations. The Wonder Room is a hands-on environment that mixes art, play and open-ended activities.
