CREATIVITY

This preschool adventure highlights the importance of play, imagination, and creativity. Experience real works of art through various hands-on experiences while we travel in imaginary rocket ships, go on pretend picnics, and jump into great works of art. 60-minutes in length; tour for ages 3-6; limited morning availability.

Creativity is becoming increasingly valued. Studies show that the correlation to lifetime creative accomplishment was more than three times stronger for childhood creativity than childhood IQ. We believe that creativity is what we crave, require, and need for future success. Artful Adventures helps put preschoolers on that path to success.
